

First Grade Remote Learning Plan

North Ward Elementary School
Tuscola, Illinois

Dear Students and Parents,

As for now we are told that we are going to be remote learning. We will be planning and giving activities for you to do with your child at home. We will not be able to access what is at school. All activities will have to be from online resources. We hope this choice board of academic activities will offer some engagement opportunities while we are apart. Please use these choices to engage your child in learning opportunities throughout the week.

It is our plan that we will be adding activities to this as our time apart continues. The activities we have included are review activities for your children. We plan on building on these activities as well as reviewing the 1st grade curriculum.

We are planning on using a site called Seesaw for your child to communicate with us and share their learning during this time. Please access Seesaw and your child's classroom code is:

Boyer: <https://app.seesaw.me/s/524-680-032>

Steadly: <https://app.seesaw.me/s/243-674-494>

Lauwers: <https://app.seesaw.me/s/644-444-391>

Please continue to e-mail us and we will support any learning that we can from home.

All of us miss you and can't wait for a day for us to learn together again. Please contact your classroom teacher if you have any questions regarding these activities.

All the best,
The first grade team

Amy Boyer	boyera@tuscola.k12.il.us
Jorden Lauwers	lauwersj@tuscola.k12.il.us
Hannah Steedly	steadlyh@tuscola.k12.il.us
